Hello CD 13. Below is the summary for PATH outreach in CD 13 this week. PATH is contracted to perform 8 hours on two days a week for a total of 16 hours per week in CD 13. (12 field and 4 administrative.) This week the CD 13 team was out one day due to vacation and illness and completed about 10 hours in the field. Due to many permanent housing appointments happening next week, the team anticipates doing extra hours in the Council District next week.

- This week we worked with approximately 13 people
 - Of these, 10 were new contacts due to new M&O sites.
- Liberty St./Glendale was the most populated and 711 Atwater Village/Madera being the least populated.
- Approximately 5 people have been identified as being more vulnerable.

Special notes and targeted outreach requests

-

- **M&O Wednesdays.** This included Liberty St., Glendale Blvd., John St. and Beverly/Lucas. Hygiene kits, trash bags, food, water gloves, and shirts were distributed. The gentleman who is usually at Beverly/Lucas Ave was not around. The team will continue to follow-up with this man. One new contact is a confirmed Veteran. (See Veteran notes below.)
- **3533 Madera – Atwater Village:** At the request of CD13 the team made contact with M.A. and offered services. She was not directly at this location but was down the street, and so it is actually uncertain if this is the actual requested person to outreach. This woman was well engaged, disclosed to us much of her life history, but declined services. She has been on the streets for over 10 years and does not trust the system. The team will continue to outreach, and build rapport and trust, and offer services and resources.
- **Beverly/Lucas;** The team is currently working with several people at this location and is in the process of building rapport and linking them to services.
- **LA River/ Bike Path;** The team is currently outreaching and identifying individuals at this location. Several of them have been outreached by the team. However, many have moved their locations and the team was unable to locate and follow up with services/resources until now. The team will continue to outreach this area and identify individuals, and offer services, as well as expand the locations/area for engagement.

Housing opportunities

Two seniors moved forward this week toward receiving permanent housing vouchers through Homeless Health Care Los Angeles (HHCLA.) Specifically, they will be connected through the Housing Authority of the City of Los Angeles (HACLA) with housing subsidies for seniors. The team continues to help them gather and complete HACLA required documents and, along with workers at HHCLA, are supporting them through their housing appointments.

Veterans

- PATH encountered one Veteran this week. He was recently discharged from VASH but is interested in being re-

Thank you,
